Mission Statement

To support public health and safety by providing safe, reliable, and efficient disposal of wastewater for the unincorporated community of Terrebonne, Oregon, while protecting Terrebonne's drinking water and natural environment.

Vision

To be a leader in sustainable wastewater management, ensuring the protection of our community's health and the preservation of our natural resources for future generations.

Values

- **Public Health and Safety:** Prioritizing the well-being of our community through effective wastewater management.
- **Environmental Stewardship:** Committed to protecting and preserving our natural environment.
- **Reliability:** Ensuring consistent and dependable services for all residents.
- **Efficiency:** Striving for operational excellence and cost-effective solutions.
- **Transparency:** Maintaining open communication and accountability to our community.
- **Community Engagement:** Encouraging active participation and feedback from residents to continuously improve our services.
